ABOUT ME

Telecommunications Systems Engineer with a strong passion for blending **technical expertise with business strategy**. My background in data processing and technology enables me to act as a trusted advisor, surfacing actionable business insights to inform strategy and maximize customer success in dynamic, ambiguous environments.

I excel at building cross-functional relationships and translating complex technical concepts into powerful, easy-to-understand solutions for different stakeholders. I am highly oriented towards **delivering against operational goals** and uniquely combining client engagement with data-driven decision making.

I am looking for an opportunity to leverage my analytical mindset and **fluent English and Spanish** communication skills to advocate for customers, provide outstanding support, and strategically drive growth for major retail and online advertisers.

TECHNICAL STACK

🤝 ACCOUNT MANAGEMENT & STRATEGY

Client Engagement • Cross-functional Collaboration • Business Insights • Expectation Management • Portfolio Management • Strategic Consulting

📈 DATA ANALYSIS & INSIGHTS

Data Processing • Pandas & NumPy • Market Analysis • Visualization • KPI Tracking • SQL

🗣️ COMMUNICATION SKILLS

Fluent Spanish • Fluent English (B2) • Active Listening • Stakeholder Alignment • Troubleshooting • Presentations

💻 TECHNICAL PROFICIENCY

Python • Data Pipelines • Automation Tools • Agile Methodologies • Technical Solutions • Web Development

🚀 OPERATIONAL EXCELLENCE

Project Delivery • Ambiguity Management • Process Optimization • Problem Solving • Resource Allocation • Fast-paced Workflows

🌐 DIGITAL ACUMEN

Online Media Trends • Tech Troubleshooting • Digital Analytics • SaaS Solutions • User Experience • Documentation

Languages: Spanish (Native) • English (B2 – Aptis ESOL, British Council)

PROFESSIONAL EXPERIENCE

AI Engineer Intern | CSIC – Institute of Physical and Information Technologies (ITEFI)

Sep 2025 – Feb 2026

- Acted as a crucial technical liaison, **troubleshooting user issues** and providing outstanding customer experience for the RESULT research team in a dynamic environment.
- Delivered against operational goals by developing automated data pipelines, reducing complex processing tasks and optimizing time/resources for stakeholders.
- Synthesized and surfaced actionable **data insights** from large datasets, enabling researchers to improve decision-making and operational strategy.
- Collaborated effectively in **cross-functional projects**, aligning the technical needs of researchers with engineering constraints to provide customized analytical solutions.
- Managed multiple concurrent projects, demonstrating the ability to function efficiently and effectively in ambiguous environments with scarce resources.
- Created and maintained comprehensive documentation and user guides to facilitate client onboarding and expectation management.

Stakeholder Management | Data Insights | Cross-functional | Client Support | Project Management | Problem Solving

EDUCATION

Telecommunications Systems Engineering | **Universidad Politécnica de Madrid (ETSIT-UPM)** *Sep 2020 – Jul 2025*

- **Programming & Algorithms:** Data structures, OOP, algorithm design and optimization (C, Python, Java).
- **Networking & Systems:** TCP/IP architecture, network protocols, operating systems, distributed systems.
- **Digital Signal Processing:** Spectral analysis, digital filtering, real-time DSP algorithms.
- **Electronics & Embedded Systems:** Microprocessors, analog/digital circuits, hardware-software integration.

Java | C | Python | Networking | DSP | Algorithms

Technology Baccalaureate, **IES Isabel la Católica** *2018 – 2020*

Science and Technology track. Honours. Strong foundation in mathematics and physics.

CERTIFICATIONS

AI and Productivity (Google): Efficient use of AI tools and automation workflows. •

Generative AI (MIT): Implementation of GenAI solutions and sentiment analysis. •

Internet of Things (MIT): IoT solutions for smart homes and precision agriculture. •

Digital Transformation (MIT): Technology strategy and business digitalization. •

Aptis ESOL B2 (British Council): Official English certification accrediting full linguistic competence (CEFR). Assessment of Reading, Writing, Listening and Speaking, demonstrating ability to work in professional environments and understand complex technical language.

CROSS-FUNCTIONAL PROJECTS

Business Analytics & Automation Platform DATA STRATEGY

DATA PIPELINES • PYTHON • ANALYTICS

Automated analysis pipeline designed to drive operational efficiency.

Acted as the project owner to build an intuitive, client-facing automation tool that processes massive datasets for non-technical users. Gathered constant feedback from stakeholders to prioritize features and ensure the solution met their ambitious analytical goals.

- Delivered significant business impact by reducing task completion time from 4-8 hours to less than 5 minutes.
- Applied customer-focused best practices to manage expectations and ensure output quality.

Tracking & Reporting Optimizer INSIGHTS & OUTPUT

STATISTICAL METRICS • KPI TRACKING • PYTHON

Intelligent system for tracking objects and visualizing key performance metrics.

Developed a robust technical solution for tracking metrics and exporting quantitative reports. Worked cross-functionally to identify the core needs of the research teams, delivering clear visual insights and predictive analysis.

- Synthesized complex data into customized, publication-ready reports.
- Demonstrated ability to thrive in ambiguous scenarios by continually adapting the tool to new user requirements.
